SUBJECT: Facilities Information Management System (FIMS) Version 1.10 Release

Today, Wednesday, June 28, 2006, version 1.10 of the Facilities Information Management System (FIMS) was released. These enhancements are automatically available to you when you log into FIMS from your browser. The following system enhancements are included in this new release.

- A new optional data element **Mission Dep (Dependency) Program** has been added to the Property Info window. This new data element is available for entry for DOE owned, DOE leased, and Contractor Leased buildings and OSF.

The following **Mission Dep Program** definition has been added to the FIMS Data Element Dictionary.

The predominant Program Office that uses a facility or OSF asset and the specific GPRA program activity (from Government Performance and Results Act) within that office that is supported by the use of that asset. To make this linkage the Department "GPRA unit" designations shall be entered to identify the predominant Program Office and the program activity. Some GPRA Units are not provided as they are HQ support in nature and would not be principal program user for an asset. Where no clear predominate program activity exists, Not Applicable may be utilized.

Population of this field is only required for NNSA sites. The information will provide NNSA improved insight into mission criticality, the facility and infrastructure linkages to specific programs and the facility related costs to support program missions.

Valid values for the **Mission Dep Program** data field are:

MDPM_CODE	MDPM_DESC
DSW	NA10 - Directed Stockpile Work

- The Upload process has been updated to add the following new fims_tbl_property data field:
 - prop_mis_dep_program CHAR(7)
- The following Standard reports have been modified to reflect the above modifications.

Report 001	Building Owned Complete Information
Report 019	Building Leased Complete Information
Report 040	OSF Owned Complete Information
Report 044	OSF Leased Complete Information

- The Outgrant window has been made available for the following list of Owned/Ingrant types. Outgrant information can be input for these properties after the Outgrant Indicator on the Prop Info window has been updated to 'Yes'.
 - DOE Leased Buildings
 - Contractor Leased Buildings
 - DOE Ingrant Land
 - DOE Leased OSF
 - Contractor Leased OSF
- The site Office of Repository Development was renamed to Civilian Radioactive Waste Management.
- Report #070 Random Building Generator (FRPC Data Validation) was modified to include the Program Office as an additional selection criteria.

- The Summary Condition has been modified to display a description if the Building/Trailer Status is 2 – Operational Standby or 6 - Operating Pending D&D. This allows Summary Condition to be calculated for the assets that Deferred Maintenance is collected for in accordance with the Annual Deferred Maintenance / Maintenance Guidance.
- The FIMSWEB.MDB ad-hoc query database has been updated to include the enhancements discussed above. You can download the updated database from the FIMS website at <http://fims.hr.doe.gov/downloads.htm>.
- The FIMS User's Guide, FIMS Reporting Guide, and FIMS Data Element Dictionary have been updated to reflect all of the above changes. These documents are available from the FIMS website at <http://fims.hr.doe.gov/documentation.htm>.

If you have any questions related to these enhancements, please contact the FIMS Hotline at 301-903-0850. You can also email Mark Gordy (mark.gordy@hq.doe.gov) or Gayle Smith (gayle.smith@hq.doe.gov).
